

## COVID-19 Situation Update for Ashe County

April 9, 2021

*This document is intended to provide a regular update on the local response to COVID-19 in our communities and timely, trended data related to COVID-19. This report will be published on Fridays.*

### Vaccinating Makes Everyone Safer - COVID-19 Vaccine Update

**Vaccinating makes everyone safer. If you are interested in getting your vaccine, there is a spot for you. Visit our website to schedule an appointment or call us at (828) 795-1970. Show your love by getting a vaccine to help slow the spread of COVID-19 in our community.**

#### Who is eligible for vaccines?

COVID-19 vaccine appointments are open for those who want a vaccine within the age requirements. The Pfizer vaccine is approved for people age 16-17 and all other vaccines are approved for 18 and older. Vaccine appointments will be added to our website as they are available based on vaccine supply so continue to check back regularly for additional appointments to be added.

#### How is equity being addressed in Ashe County?

Equity is an important and significant factor to address during the COVID-19 pandemic, especially as it pertains to the COVID-19 vaccine. In Ashe County, those who need help with transportation can use the [Ashe County Transportation Authority](#) to get to and from vaccination sites. Transportation is free of charge for residents. For those who are in need of interpreters, we have interpreters available to help with your vaccine appointment. Also, some people are unable to leave their homes due to lack of accessibility, location, disability, etc. and we are able to offer vaccinations at someone's home by scheduled appointments.

### How is Ashe County providing assistance with transportation for COVID-19 appointments?

[Ashe County Transportation Authority](#) is now providing complementary services to COVID-19 vaccination sites. This service is provided Monday through Friday for any Ashe County resident. However, appointments must be made by 2:00 PM the day before the trip. Call 336-846-2000 to schedule an appointment. Masks are required. Wheelchair accessible vehicles are available by request.

---

### COVID-19 Vaccine Data

#### How many doses of vaccine do we have?

First Doses (Data as of April 9, 2021)		
Week of April 5th Allocation	Total First Doses Accepted	Total First Doses Administered
200	7,010	6,630

Second Doses (Data as of April 9, 2021)		
Week of April 5th Allocation	Total Second Doses Accepted	Total Second Doses Administered
500	4,910	4,510

The total doses of vaccine received includes the vaccine that was transferred to us from the hospital.

Percent of Ashe County Vaccinated (Data as of April 8, 2021)	
Partially Vaccinated	27.2%
Fully Vaccinated	21.7%

The vaccine will be offered **free of charge to everyone** whether or not you have health insurance. To learn more about the COVID-19 vaccine, visit our website [here](#) or NC DHHS's website [here](#).

### Key Points

#### Case Updates

For the week of March 21-April 3 (graphs below), new cases remain steady and there was an increase in the number of individuals quarantined.

### Statement from Ashe Memorial Hospital

As COVID-19 continues to impact our neighbors and surrounding counties, we encourage everyone to do their part to help reduce the spread of COVID-19 by wearing a mask, washing their hands, and social distancing whenever possible. The safety and well-being of our community is our top priority. We have protocols in place to ensure that we are able to meet the needs of our patients and our community.

### NC DHHS County Alert System Notes

#### Moderate Impact for Ashe County

In the latest update, Ashe County is **LIGHT YELLOW** which notes moderate impact.

This system outlines actions we can take to lessen the impact and spread in our community. You can read more about the

[County Alert System on NC DHHS's website](#).

NC Counties by Tier: Data from March 14 through March 27, 2021

**We continue case investigation and contact tracing efforts to reduce the spread of COVID-19.** If you receive a call from a member of our case investigation or contact tracing team, we urge you to cooperate and provide information that will help us conduct response efforts. You may receive a call from (844) 628-7223 or (828) 264-4995. It may also show up as “NC Outreach” or “Contact Tracing.” Your cell phone carrier may flag the call as spam. It is so important to answer the call of a contact tracer. It is a key tool in slowing the spread of this virus.

### Testing

**If you have COVID-19 symptoms or have been exposed to someone with COVID-19 (regardless of whether you have symptoms or not), we recommend you be tested.** You can [check your symptoms](#) and determine if testing is needed. To find a testing site near you, visit [NC DHHS's Find My Testing Place](#).

**Turnaround Times for Testing remains between 2 and 4 days.** NC DHHS provides data on testing turnaround times. This data is updated daily and can be found [here](#).

**Free COVID-19 Testing at AppHealthCare by Appointment.** We offer testing on Monday and Thursday each week unless otherwise noted. Please do not just show up for testing. We request that you schedule an appointment through our [website](#) or by calling our COVID-19 Call Center at (828) 795-1970.

Testing is also offered by appointment at Mountain Family Care Center (336) 846-6322 (located on the campus of Ashe Memorial Hospital), [CVS Pharmacy in West Jefferson](#), [Ashe Pediatrics](#) and other local healthcare providers may offer testing as well.

### Active Outbreaks and Clusters

Data is provided for outbreaks and clusters that are active and ongoing. The number of cases for outbreaks and clusters are current as of each Thursday at 9:00am. The case counts vary day by day as new cases are identified and as cases are moved in and out of isolation. This data may not match other reported data since this is a point in time. As we conduct outbreak and case investigations, the data included in this report are subject to change. For a current case count, visit the [AppHealthCare data dashboard](#), which is updated Monday through Friday by noon.

An outbreak is defined as two or more laboratory confirmed cases. A cluster is defined as a minimum of five cases with illness onsets or initial positive results within a 14-day period and plausible epidemiologic linkage between cases. An outbreak or cluster is considered over if 28 days have passed after the latest date of symptom onset in a symptomatic person or first date of specimen collection from the most recent asymptomatic person, whichever is later. Additional information on the [definitions of outbreaks and clusters](#) is provided by the North Carolina Department of Health & Human Services. NC DHHS also provides regularly updated information on [outbreaks and clusters](#).

#### Active Outbreaks & Clusters

*Data is current as of Thursday, April 8th*

**Facility or Setting  
Type**

**Facility or Setting  
Name**

**Active Cases**

**Cumulative Cases**

**Last Positive  
Result**

*No active outbreaks/clusters at this time.*

## Demographic Data from NC DHHS as of April 5th

### Cases by Race for Ashe County

### Cases by Ethnicity for Ashe County

### Cases by Age for Ashe County

### Cases by Gender for Ashe County

April 5, 2021

## Data for Ashe County

An important note about data context: The graphs below show the available data. Please carefully read the descriptions below the graph to understand the data limitations. The most current data is available on the [AppHealthCare dashboard](#), as the data below is past data trended.

### Important Disclaimer About Data

It is imperative that this report and the data contained within is understood in the appropriate context. Please, if you use this report, please be certain that the information included within is shared within the appropriate context. Doing otherwise may be damaging to the public health response efforts. There are multiple factors involved in addressing this virus, including compliance with public health control measures implemented by the local health director and referenced in NC GS 130A. These measures are imperative for limiting the spread of COVID-19. **AppHealthCare strongly advises that when data is shared for the purposes of educating the public or informing policy decisions, it should come directly from NC DHHS or AppHealthCare as it is presented with appropriate context from those directly involved in public health response.**

### Cumulative Case Count by Week in Ashe County (February 21, 2021 - April 3, 2021)

CUMULATIVE CASE COUNT  
(As of 4/3/21)  
**2,125**

The solid navy blue line in this graph represents the number of positive COVID-19 cases among Ashe County residents by week. This graph also shows the number of non-residents that have tested positive for COVID-19 but reside in another county.

### Number of Active Positive Cases by Week in Ashe County (February 21, 2021 - April 3, 2021)

The graph represents the number of active COVID-19 positive cases by week in Ashe County. A positive COVID-19 case is considered active for ten days after the initial positive test result.

**Total Weekly Tests Reported vs. Weekly Positive Case Count in Ashe County  
(February 21, 2021 - April 3, 2021)**

This graph represents the number of COVID-19 positive cases by week in Ashe County compared to the total number of reported tests that were completed by AppHealthCare and outside agencies each week in Ashe County.

**Number of People Being Actively Monitored by Week in Ashe County  
(February 21, 2021 - April 3, 2021)**

This graph represents the total number of Ashe County residents that AppHealthCare staff have monitored due to being exposed to a confirmed COVID-19 case. Individuals are notified and asked to quarantine and monitor for symptoms for fourteen days.

Additional data can be found on [AppHealthCare's data dashboard](#). This data is updated each day around noon.
