

COVID-19 Situation Update for Alleghany County June 4, 2021

This document is intended to provide a regular update on the local response to COVID-19 in our communities and timely, trended data related to COVID-19. This report will be published on Fridays.

Vaccinating Makes Everyone Safer - COVID-19 Vaccine Update

Vaccinating makes everyone safer. If you are interested in getting your vaccine, there is a spot for you. Visit our website to schedule an appointment or call us at (828) 795-1970. Show your love by getting a vaccine to help slow the spread of COVID-19 in our community.

Who is eligible for vaccines?

COVID-19 vaccine appointments are open for those who want a vaccine within the age requirements. The Pfizer vaccine is approved for people ages 12 and older and all other vaccines are approved for 18 and older.

Are you interested in hosting a pop-up vaccination event?

A pop-up vaccination clinic is another way to make vaccines available to our community. Pop-up events are intended to provide more access to vaccines and reduce transportation, technology and geographic barriers. Pop-up events can be set up at businesses, community agencies, existing events and more! If you are interested in hosting an event or for us to

Data as of JUNE 3, 2021 FROM NC DHHS Percent of Alleghany County Vaccinated

come to your business/event, please complete the interest form (<u>English form</u> and <u>Spanish form</u>) and a member of our vaccination team will contact you.

The vaccine is free for everyone, regardless of your immigration status. You do not need to show proof of insurance, social security number or an ID if you do not have it.

To learn more about the COVID-19 vaccine, visit our website <u>here</u> or NC DHHS's website <u>here</u>.

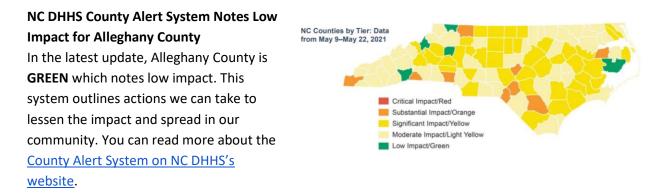

Key Points

Case Updates

In recent weeks, cases have declined steadily.

Statement from Alleghany Health

We are continuing to provide a safe environment for our community members, to receive emergency care services where they live. Our staff are here to support and provide for our community's healthcare needs on a 24/7 basis. With the addition of Urgent Care as a new service line, within the hospital clinic of Alleghany Health Service (in pilot mode), we are offering Urgent Care services Mon-Fri 8am-1pm. We have top notch providers and staff who are ready to care for you, during a medical emergency.

We continue case investigation and contact tracing efforts to reduce the spread of COVID-19. If you receive a call from a member of our case investigation or contact tracing team, we urge you to cooperate and provide information that will help us conduct response efforts. You may receive a call from (844) 628-7223 or (828) 264-4995. It may also show up as "NC Outreach" or "Contact Tracing." Your cell phone carrier may flag the call as spam. It is so important to answer the call of a contact tracer. It is a key tool in slowing the spread of this virus.

Testing

If you have COVID-19 symptoms or have been exposed to someone with COVID-19 (regardless of whether you have symptoms or not), we recommend you be tested. You can <u>check your symptoms</u> and determine if testing is needed. To find a testing site near you, visit <u>NC DHHS's Find My Testing Place</u>.

Turnaround Times for Testing remains between 2 and 4 days. NC DHHS provides data on testing turnaround times. This data is updated daily and can be found <u>here</u>.

Free COVID-19 Testing at AppHealthCare by Appointment. We offer testing on Monday and Thursday each week unless otherwise noted. Please do not just show up for testing. We request that you schedule an appointment through our <u>website</u> or by calling our COVID-19 Call Center at (828) 795-1970.

Testing is also offered by appointment at Alleghany Family Practice at (336) 372-5606 and other local healthcare providers may offer testing as well.

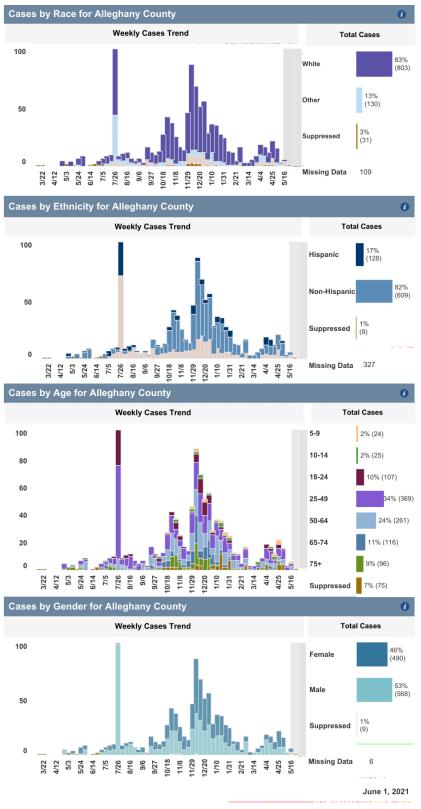

Active Outbreaks and Clusters

Data is provided for outbreaks and clusters that are active and ongoing. The number of cases for outbreaks and clusters are current as of each Thursday at 9:00am. The case counts vary day by day as new cases are identified and as cases are moved in and out of isolation. This data may not match other reported data since this is a point in time. As we conduct outbreak and case investigations, the data included in this report are subject to change. For a current case count, visit the <u>AppHealthCare data</u> <u>dashboard</u>, which is updated Monday through Friday by noon.

An outbreak is defined as two or more laboratory confirmed cases. A cluster is defined as a minimum of five cases with illness onsets or initial positive results within a 14-day period and plausible epidemiologic linkage between cases. An outbreak or cluster is considered over if 28 days have passed after the latest date of symptom onset in a symptomatic person or first date of specimen collection from the most recent asymptomatic person, whichever is later. Additional information on the <u>definitions of outbreaks</u> and clusters is provided by the North Carolina Department of Health & Human Services. NC DHHS also provides regularly updated information on <u>outbreaks and clusters</u>.

Active Outbreaks & Clusters Data is current as of Thursday, June 3rd				
Facility or Setting Type	Facility or Setting Name	Active Cases	Cumulative Cases	Last Positive Result
Long term care facility	Alleghany Center/Genesis	0	4	5/17/2021

Important Disclaimer About Data

It is imperative that this report and the data contained within is understood in the appropriate context. Please, if you use this report, please be certain that the information included within is shared within the appropriate context. Doing otherwise may be damaging to the public health response efforts. There are multiple factors involved in addressing this virus, including compliance with public health control measures implemented by the local health director and referenced in NC GS 130A. These measures are imperative for limiting the spread of COVID-19. AppHealthCare strongly advises that when data is shared for the purposes of educating the public or informing policy decisions, it should come directly from NC DHHS or AppHealthCare as it is presented with appropriate context from those directly involved in public health response.

Additional data can be found on <u>AppHealthCare's data dashboard</u>. This data is updated Monday through Friday by noon.
