

# Allegheny COVID-19 Situation Update

August 13th, 2021

## COVID-19 Updates

- In areas with substantial and high transmission, the CDC recommends that everyone (including fully vaccinated individuals) wear a mask in public indoor settings to help prevent the spread of the Delta variant, and to protect others.
  - [According to the Centers for Disease Control and Prevention](#), Allegheny County has a **HIGH level of community transmission** (right). [Click here for North Carolina Department of Health and Human Services' County Alert System.](#)
- Beginning Monday, August 16th, AppHealthCare will be expanding COVID-19 testing by drive-thru **Monday through Friday 8:30-10:00am** at each of our clinic locations. No appointment is needed.
- AppHealthCare offers COVID-19 vaccines by walk-in or appointment Monday through Friday. **Walk-in hours for vaccines are 1:00-4:00pm.** If you choose to walk-in for a vaccine, you may have to wait. In order to lessen your wait time, please schedule an appointment. To schedule an appointment, call (828) 795-1970.

## Get Vaccinated to Protect Yourself Against COVID-19 and Variants

- **\$100 Visa Gift Cards are available** from Aug. 4 through Aug. 31 to all who are 18 + getting their first dose of the COVID-19 vaccine and \$25 Visa Gift Cards are available for those who drive someone to get their first dose of vaccine. [\(Click here to learn more\)](#)
- Get vaccinated to protect yourself against COVID-19 and variants. With the Delta variant, this is more urgent than ever. The highest spread of cases and severe outcomes is happening in places with low vaccination rates.
- The vaccines are working like they should. They are helping prevent severe illness, hospitalization and death.
- Vaccinated individuals represent a very small amount of transmission occurring around the country. Most vaccinated people are protected from the virus.
  - If you get vaccinated, your risk of infection is about **3.5 times lower**, your risk of getting ill from COVID is over **8 times lower**, and your risk of hospitalization or death is about **25 times lower**.

# COVID-19 Vaccination Updates

## New CDC Data: COVID-19 Vaccination Safe and Strongly Encouraged for People Who are Pregnant and Breastfeeding

Getting a COVID-19 vaccine can protect you from severe illness from COVID-19.

COVID-19 vaccination is recommended for those who are pregnant, breastfeeding, trying to get pregnant now, or might become pregnant in the future. Pregnant and recently pregnant people are more likely to get severely ill with COVID-19 compared with non-pregnant people. Getting a COVID-19 vaccine can protect you from severe illness from COVID-19.

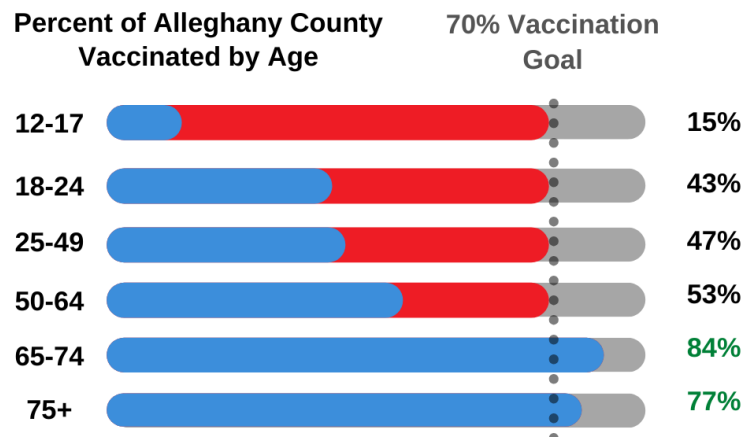

Clinicians have seen the number of pregnant people infected with COVID-19 rise in the past several weeks. The increased circulation of the highly contagious Delta variant, the low vaccine uptake among pregnant people, and the increased risk of severe illness and pregnancy complications related to COVID-19 infection among pregnant people **make vaccination for this population more urgent than ever.**

### Allegheny County Vaccination Data

County-specific race, ethnicity and age data are from the [NCDHHS COVID-19 Vaccination Dashboard](#), - (All vaccine demographic data are current as of 8/4/2021 at 4:00 am.).

Percent of Population by Race Fully or Partially Vaccinated	
American Indian or Alaskan Native	0%
Asian	0%
Black or African American	0%
Native Hawaiian or Other Pacific Islander	0%
Other	21%
White	39%

**7,157**  
Vaccines Administered by  
AppHealthCare in Allegheny  
County  
as of 08/12/2021.

# North Carolina COVID-19 Updates

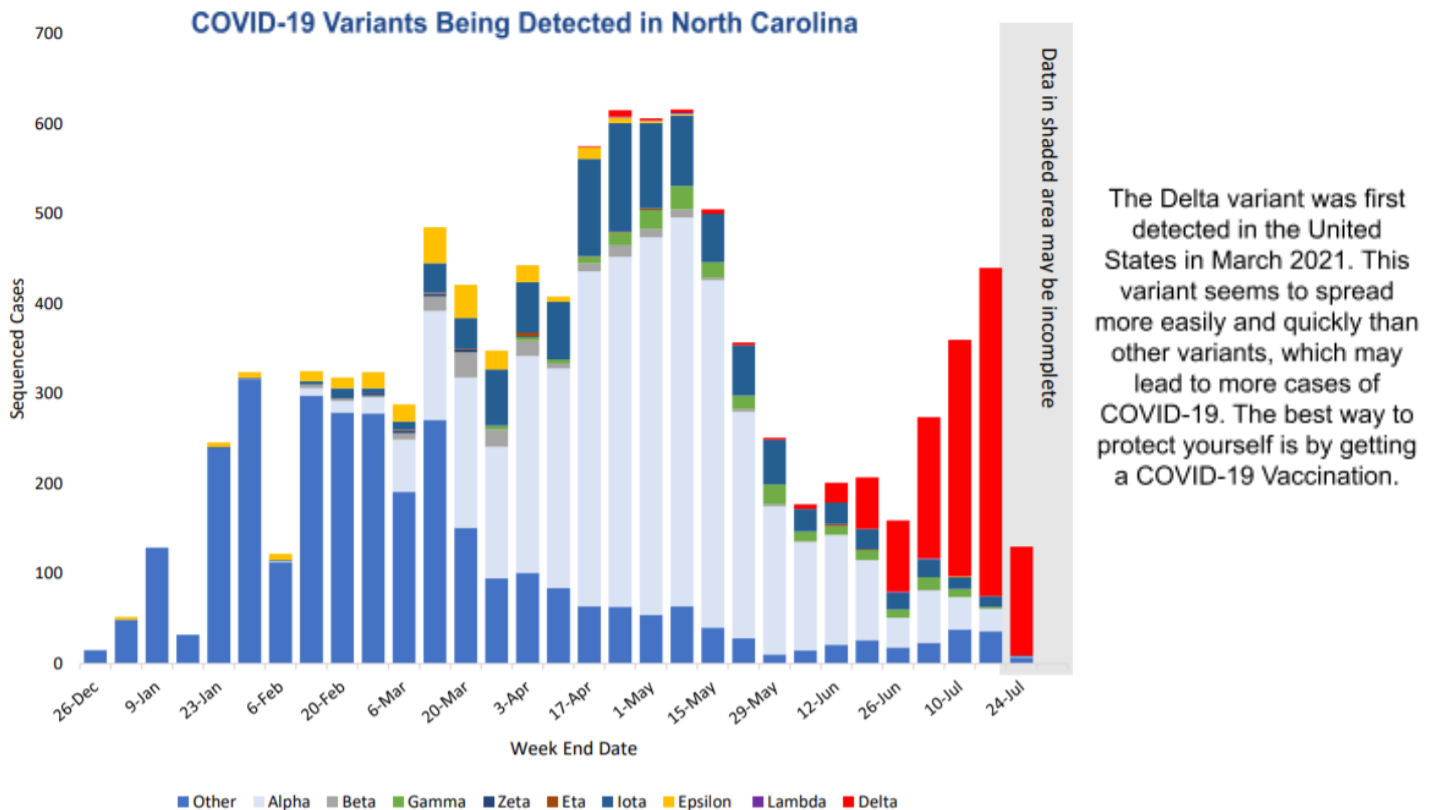

## North Carolina State Synopsis

Data is from [COVID-19 State Profile Report](#), provided by White House COVID-19 Team, Joint Coordination Cell, Data Strategy and Execution Workgroup - (All data is current as of 8/06/2021)

	LAST WEEK	CHANGE FROM PREVIOUS WEEK
RATE OF NEW COVID-19 CASES PER 100,000	<b>207</b>	<b>+89%</b>
NUCLEIC ACID AMPLIFICATION TEST (NAAT) POSITIVITY RATE	<b>10.7%</b>	<b>+1.1%</b>
NEW CONFIRMED COVID-19 HOSPITAL ADMISSIONS / 100 BEDS	<b>4.3</b>	<b>N/A*</b>
RATE OF NEW COVID-19 DEATHS PER 100,000	<b>1.0</b>	<b>+203%</b>
COMMUNITY TRANSMISSION LEVEL	<b>HIGH TRANSMISSION</b>	
PEOPLE RECEIVED AT LEAST 1 DOSE	<b>5,452,158 people</b>	<b>52.0% of total pop.</b>
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	<b>5,147,251 people</b>	<b>62.9% of 18+ pop.</b>
PEOPLE FULLY VACCINATED	<b>4,623,799 people</b>	<b>44.1% of total pop.</b>
PEOPLE 18+ FULLY VACCINATED	<b>4,404,798 people</b>	<b>53.8% of 18+ pop.</b>

# COVID-19 Allegheny County Case Updates

Cases to Date in App District (Allegheny, Ashe, and Watauga counties). A breakthrough case is when someone who is fully vaccinated becomes infected. *(All data is current as of 8/12/2021 at 9 am)*

**Breakthrough cases occur in only a small proportion of vaccinated people and the vast majority are avoiding serious illness, hospitalization, or death.**

If you have COVID-19 symptoms or have been exposed to someone with COVID-19 (regardless of whether or not you have symptoms), we recommend you be tested.

**AppHealthCare offers free walk-in testing.** Refer to our [website](#) for more information and FAQs regarding getting tested for COVID-19.

## Active Clusters and Outbreaks in Alleghany County

An outbreak is defined as two or more laboratory confirmed cases within a 14 day period in a congregate living setting. A cluster is defined as a minimum of five cases within a 14-day period and plausible epidemiologic linkage between cases. An outbreak or cluster is considered active until 28 days have passed with no newly identified cases. Additional information on the [definitions of outbreaks and clusters](#) is provided by the North Carolina Department of Health & Human Services.

County	Setting Name	Setting Type	Active Cases	Cumulative Cases	Latest Positive Result
*There are no active clusters/outbreaks in Alleghany county at this time.					

*(Cluster and outbreak data is current as of 8/11/2021 at 12pm)*

**Alleghany (336) 372-5641 | Ashe (336) 246-9449 | Watauga (828) 264-4995**
