Ashe COVID-19 Situation Update

August 6th, 2021

COVID-19 Updates

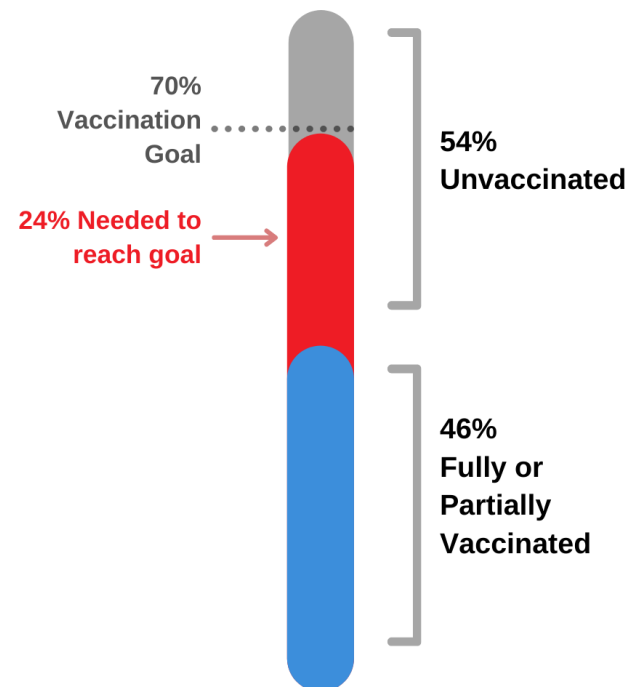

- In areas with substantial and high transmission, the CDC recommends that everyone (including fully vaccinated individuals) wear a mask in public indoor settings to help prevent the spread of the Delta variant, and to protect others.
 - [According to the Centers for Disease Control and Prevention](#), Ashe County has a **HIGH** level of community transmission (right). [Click here for North Carolina Department of Health and Human Services' County Alert System.](#)

Get Vaccinated to Protect Yourself Against COVID-19 and Variants

- **\$100 Visa Gift Cards are available** from Aug. 4 through Aug. 31 to all who are 18 + getting their first dose of the COVID-19 vaccine and \$25 Visa Gift Cards are available for those who drive someone to get their first dose of vaccine. [\(Click here to learn more\)](#)
- Get vaccinated to protect yourself against COVID-19 and variants. With the Delta variant, this is more urgent than ever. The highest spread of cases and severe outcomes is happening in places with low vaccination rates.
- The vaccines are working like they should. They are helping prevent severe illness, hospitalization and death.
- Vaccinated individuals represent a very small amount of transmission occurring around the country. Most vaccinated people are protected from the virus.
 - If you get vaccinated, your risk of infection is about **3.5 times lower**, your risk of getting ill from COVID is over **8 times lower**, and your risk of hospitalization or death is about **25 times lower**.
- If you would like a COVID-19 vaccine with us either schedule an appointment by calling us or by walk-in Monday through Friday 8:00 to 4:00pm at our clinic locations in Alleghany, Ashe and Watauga Counties.

PEOPLE RECEIVED AT LEAST 1 DOSE	5,356,957 people	51.1% of total pop.
PEOPLE 18+ RECEIVED AT LEAST 1 DOSE	5,069,047 people	61.9% of 18+ pop.
PEOPLE FULLY VACCINATED	4,584,126 people	43.7% of total pop.
PEOPLE 18+ FULLY VACCINATED	4,372,910 people	53.4% of 18+ pop.

COVID-19 Variants Detected in North Carolina by Week

Data is from [North Carolina Department of Health and Human Services' COVID-19 Surveillance Study](#). (Data is current as of 8/05/2021 at 4:00pm)

The Delta variant was first detected in the United States in March 2021. This variant seems to spread more easily and quickly than other variants, which may lead to more cases of COVID-19. The best way to protect yourself is by getting a COVID-19 Vaccination.

Regional COVID-19 Hospitalization Data

The hospitalization data reflected includes Ashe County. All hospitalization data is from [North Carolina Department of Health and Human Services' Hospitalization Data Dashboard](#). The trend of hospitalization data regionally shows a steep, rapid increase. *(All data is current as of 8/05/2021 at 5:00 pm)*

COVID-19 Case Updates

Cases to Date in App District (Alleghany, Ashe, and Watauga counties). A breakthrough case is when someone who is fully vaccinated becomes infected. *(All data is current as of 8/05/2021 at 9 am)*

Breakthrough cases occur in only a small proportion of vaccinated people and the vast majority are avoiding serious illness, hospitalization, or death.

If you have COVID-19 symptoms or have been exposed to someone with COVID-19 (regardless of whether or not you have symptoms), we recommend you be tested.

AppHealthCare offers free walk-in testing. Refer to our [website](#) for more information and FAQs regarding getting tested for COVID-19.

Active Clusters and Outbreaks in Ashe County

An outbreak is defined as two or more laboratory confirmed cases within a 14 day period in a congregate living setting. A cluster is defined as a minimum of five cases within a 14-day period and plausible epidemiologic linkage between cases. An outbreak or cluster is considered active until 28 days have passed with no newly identified cases. Additional information on the [definitions of outbreaks and clusters](#) is provided by the North Carolina Department of Health & Human Services.

County	Setting Name	Setting Type	Active Cases	Cumulative Cases	Latest Positive Result
Ashe	Grassy Creek Farm	Agricultural	1	15	7/29/2021

(Cluster and outbreak data is current as of 8/4/2021 at 12pm)

Alleghany (336) 372-5641 | Ashe (336) 246-9449 | Watauga (828) 264-4995
